|---------------------------------|------------------------------|
| <b>Source</b>                   | Peptide synthesis            |
| <b>Predicted Molecular Mass</b> | n/a                          |
| <b>Buffer Formulation</b>       | PBS, pH7.4.                  |
| <b>Traits</b>                   | Freeze-dried powder          |
| <b>Purity</b>                   | > 95%                        |
| <b>Isoelectric Point</b>        | n/a                          |
| <b>Applications</b>             | Immunogen; Blocking Peptide. |

## **USAGE**

Reconstitute in PBS or others.

## **STORAGE**

Avoid repeated freeze/thaw cycles. Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months.

## **STABILITY**

The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

## **[IMPORTANT NOTE]**

The kit is designed for research use only, we will not be responsible for any issue if the kit was used in clinical diagnostic or any other procedures.
